

# Notice to Enagic Distributors

## Regarding Compliance Violations

At the company discretion, non-compliant distributors face one or more of the following disciplinary actions:

- ★ Termination of Distributorship
- ★ Business Suspension
- ★ Decreased (or freezing of) commissions/bonuses

Please understand that disciplinary acts are taken to not only protect the company but to also protect our valued distributors.

### Compliance Violation

include non-compliance of any company terms and conditions, policies and procedures, the agreement and violation of laws such as specified commercial transactions act and medical claims.

As far as we know, five cases have been brought to the consumer center this year. Regardless of the content, the company will be punished if we exceed this number, jeopardizing the lives of our other innocent, hard-working distributors as a result. In order to prevent this, distributors must pay close attention and be very mindful of each other. Please immediately report to the company if you have any information. Thank you.
